

What is Glow?

Glow is an online intranet for pupils and school staff in Scotland to access learning and teaching resources.

How do children log in to Glow?

Visit: <https://glowconnect.org.uk/>

All of the children have been given a Glow account.

Locked account or missing password?

It is important to set up a password recovery email so you are able to reset your password if you forget it. This is very easy to do and it will allow Glow to send a reset link to your chosen email address. See separate sheet.

We are able to reset missing passwords or locked accounts at school – so please don't worry.

Launch Pad

Once signed into Glow, pupils will be able to access their 'Launch Pad'. This is the area where children will be able to access 'apps' which they have added.

Microsoft Office 365 App

Each of the children have Microsoft Office 365 added to their launchpad. This app gives children access to a range of Microsoft software including Microsoft PowerPoint, Word, Excel and OneNote.

This is a fantastic resource as it allows pupils to access documents at home and at school.

Microsoft Office Download

On each child's Glow launchpad there is an option to download Microsoft Office 365 onto their home computer – completely free of charge. This will allow children and family members to use Microsoft Office without needing to be logged into Glow or connected to the internet. Using a Glow log in you can install Microsoft Office on up to 5 PCs or Macs, 5 tablets, and 5 smartphones.

Microsoft Outlook (Email)

Through the Microsoft Office 365 App on their Glow Launchpad, children have access to email. When a Glow account is created, a Glow email address is also created. Children's email addresses can be found with their Glow log in details. Please speak to your child about using email and appropriate use of this app.

I hope this overview is useful, please contact me if you have any questions, queries or concerns about children using Glow. It really is a fantastic resource and it is exciting to see the children developing ICT skills which will be useful to them throughout their time at Aberlour Primary and beyond!
